Q: Now that I've found the business I'm looking for what do I do?

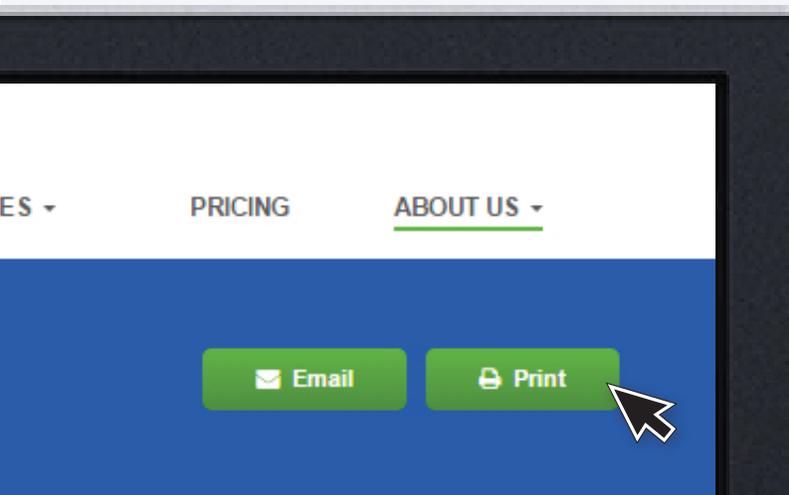

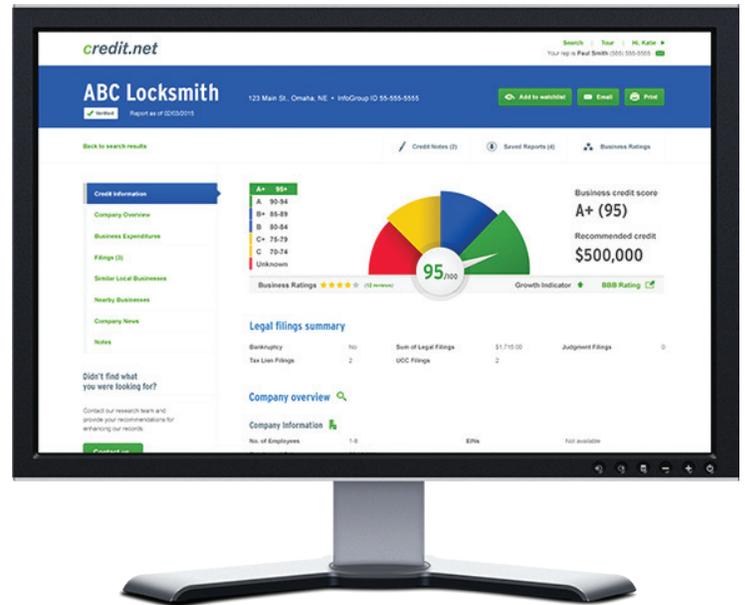

Once you find the business you are searching for you can select the business and review the Business Credit Report online. Reports will have the following business labels:

Verified: We've been able to contact the business and confirm its existence based on owner names, phone numbers, physical address, size, industry, and website.

Pre-verified: We have determined the business may exist but have yet to verify it.

Suspect: We have been unable to confirm business details, which may indicate they are out of business.

Out of business: We have confirmed the business is no longer operating.

You can also **print or email** the report by selecting the buttons at the top of the Business Credit Report.
